

# 10 Best Premium WordPress themes to choose from in 2019

WordPress has the distinct honor of being a highly configurable Content Management System (CMS), which was originally designed to address the needs of bloggers but eventually evolved into a platform that accommodates plugins and design widgets – adding not only aesthetic value, but also functionality.

There are many Premium WordPress themes to choose from but here we have listed the best ones for you to make it a little easier for you to choose from.

## Soledad

Soledad is a theme that can live up to anyone's expectations in much less bucks. The customers of this theme are supposed to be universally satisfied. This undeniable popularity is justified by a large selection of remarkable features. The theme layout is responsive towards high resolution Retina devices and most web browsers. Your content can be viewed on smartphones, tablets, desktop computers, and laptops. In total, there are more than 200 blog layout and slider combination options.

Over 250 home page demos are available for all users. They can serve as a template for your own designs, or they can be installed directly. Soledad has 5 article layouts, 3 sidebar layouts, and 6 portfolio variations. Users will gain access to a massive color palette, and a stunning website gallery.

## Divi

The motto of this theme is "The sky's the limit". When you will install this theme you will understand why. It offers you unlimited customization features and superior functionality, the kind that can only be achieved through hiring a

professional web developer. Let's take look at the most noticeable features brought by Divi:

It is especially recommended for use for life marker events such as weddings, or special interest sites such as those created for parenting advice and tips. It's also excellent for promoting products and services through its custom post types. This theme has two homepage layouts available, together with multi-page templates.

### Inspiro

The Inspiro portfolio theme enables your work to speak for itself with a modern photo and video-focused design that is brimming with custom features like a fullscreen slideshow, gallery module, and support for YouTube and self-hosted background videos. You can even sell your work using the included shopping cart functionality.

### Infinite

Infinite from Good Layers is a theme that the company refers to as a new secret weapon. The reason for this probably lies in just how dynamic and powerful the template is. With the help of a page builder, users can fully customize the website of their dreams with 14 blog layouts, nine portfolio layouts, and six gallery layouts. SEO-optimized and responsive, the theme truly provides everything you need to wipe out the competition.

### Photocrati

Photocrati is a leading theme platform specializing in the photography niche. It provides a platform of themes & templates which include a built-in gallery system, a photography options panel and much more. Ideal for photographers and highly customizable, Photocrati has a great record!

### Massive Dynamic

Massive Dynamic is a multi purpose and neat web creator. It is the best platform for creating sleek, neat and stylish websites.

Massive Dynamic offers a range of custom developed, professionally designed templates and demo pages and websites for amazingly convenient and specific niche and general market applications, from corporate and commercial to business or even personal creative or professional websites. When you import templates in Massive Dynamic, they include all configuration settings, plugins and shortcodes, readily functional then and there.

### TheGem

The gem is a very creative initiative to the themes world of WordPress. The best part about it is that it is quite easy to use.

TheGem has plenty of conceptual demo websites for businesses, gyms, spa centers, creative design agencies, online stores powered by the integrated WooCommerce eCommerce plugin suite visually styled to match your TheGem website, and many more template pages then you'll know what to do with, ensuring you always find what you need to make your content shine. With TheGem, mobile friendliness is at the core of things, owing to TheGem's robust Bootstrap roots, which also furnish staunch cross-compatibility across all browsers and devices. No matter the project on your hands, TheGem packs what you need to succeed.

### Underwood

Bold and masculine, Underwood is a modern blog theme that is strong but not bloated. Users can choose from three different homepage layouts and nine custom post formats. Built on Bootstrap, the template loads quicks, is secure, and has fewer bugs than average. It can be customized using the native, beginner-friendly WordPress customizer and can handle all of your favorite plugins and features.

## Inception

Inception is the perfect one-page portfolio theme, with beautiful CSS3 animations, smooth section transitions, a customizable footer, and Google Maps integration. All of this means that you can easily showcase yourself and your business, regardless of whether it's online or offline. And with its beautiful design, Inception is a theme that will leave a fantastic and lasting first impression on your visitors.

## The X theme

Themeforest is dubbing it as the theme of 2017. It is a premium theme with which you can create numerous websites. Launched on 2014 by themeforest it still has a grip on the WordPress market making it to our top 10 list.
