

# Unicode - Super attractive WordPress theme

Unicode is the super attractive WordPress theme filled with vibrant colors and clean designs. Unicode is a pixel perfect creative multi-purpose WordPress Theme based on Visual Composer. It is supremely engaging, widely successful, fresh-faced, accessible fast-loading, efficiently coded and technologically sophisticated responsive WordPress creative multipurpose theme.

Unicode has been packed with an amazing set of tools and features that make churning out professional, popular and highly interactive pages and websites without writing a single line of code an easy, breezy task.

Unicode is powered by the latest and greatest web development technologies, incorporating HTML5 coding, polished and customizable CSS3 styling and modular Bootstrap design in a seamless, put together and completely outstanding presentation that is easily digested by users across all market segments.

Theme focuses on legibility and brand identity, with extensively customizable typographical options and advanced color schemes. Unicode is a theme that lets you build websites that people can enjoy and want to share with others immediately. If you have something to say and need a beautiful soapbox to say it from, Unicode is your theme.
